What is mythology? Mythology is the echo in modern times of past eras and ancient civilizations. It embodies human dreams and longings which evolve our civilization to Oneness with the Divine Universe. Mythology also illustrates the participation of Higher Dimensional Beings in our third-dimensional world and the callings from Universal Deities to Humanity.

Mythology is a collaborative creation of our human civilization. It is full of traceable roots that prove its truth. The authenticity of a mythology depends on how its creator or narrator's energy field resonates with the Universe. All mythology depends on people with paranormal abilities to collectively access Universal Information from the stream of human history. The author of the Chinese mythical novel *Pilgrims Journeying West* had super-extraordinary abilities and his energy resonated well with the Universal Energy.

The Earth has endured thousands of eras of civilization. The later ones are not necessarily more advanced than the earlier ones. This fact is evident in families. If you have three generations, the grandchild is not necessarily smarter than his father or grandfather. China's famous poet Li Bai and Tao Yuan-Ming both had sons with disabilities; Charles de Gaulle's daughter was also disabled; while Napoleon and Bill Clinton were far superior to their grandparents.

It is significant that the beginning phase of each era of civilization is usually more advanced than its middle or ending phase. The degree of advancement correlates to the level of connection with the Universe maintained by the humans during that era. During the beginning of each era, the Deities usually live among the humans to help rid them of their ignorance, change their animal nature to a divine one, and help them to attain transcendence. The Humans are obedient to

the Deities who had have total sovereignty. They live peacefully with jackals, wolves, tigers, and leopards. There is no war or hatred because the humans are basically free of desires. (It is the period of remote antiquity when the *authentic humans* inhabited the earth.)

In the middle phase of an era, the humans start to have desires and an animal nature. This causes them to disobey the Deities. In order to keep the human's divine nature from totally disintegrating, the Deities plan intermarriages or sexual relationships between the Divine Beings and Humans. The resulting offspring of these unions, (so called "miraculous conceptions") half god and half human, govern the human society and possess super-extraordinary capabilities. After they achieve miraculous endeavors, some of these saintly leaders begin to develop arrogance. They scheme of ways to be independent. This causes

(Continued on page 3)

NEWS BRIEF FROM AMERICA

On the evening of October 14th, just three days after arriving back from Germany, Grand Master Le-Tian and Master Tian-Ping gave an introductory lecture on Karmic Disturbance Disorder (KDD) in Santa Cruz. The lecture, sponsored by the Northern California Santa Cruz Tian Gong group, paved the way for the two KDD seminars that were held that weekend on October 16th and 17th.

That weekend, Tian Gong Inter-

national Foundation (TGIF) offered the 2nd set of KDD seminars in Santa Cruz and Marin County. The seminars had been offered originally in May of 2004. The two seminars had 63 participants, many of whom were new students. The talks and activities gave the participants an understanding of Tian Gong philosophy and the importance of KDD.

Master Tian-Ping's precise readings on the causes of each

malady convinced many of the seminar participants of Tian Gong's amazing abilities. The causes of the students' maladies varied in content, but all of them shared the same source—the entanglement with passed-on souls. The types of souls included animals (such as snakes), family members, aborted infants, and souls seeking revenge.

(Continued on page 2)

AMERICA NEWS BRIEF. CONT

(Continued from page 1)

The participants were further inspired by Tian Gong's healing of KDD. Grand Master and Master Tian-Ping requested the passed souls to leave. Most of the passed souls left. Many of the souls that didn't leave agreed to stay away from the participants they had been disturbing. Most students sensed immediate relief from their suffering and an improvement in their well-being.

One male participant was entangled with a passed soul who had been his stepmother in his previous life. His stepmother possessed high qualities. When Grand Master and Master Tian-Ping requested the soul to leave, a strand of brilliant light poured down from the Universe and the soul ascended into the light.

One of the participants was so excited by the results of this seminar that she is deciding whether to move from Florida to California to continue studying Tian Gong.

On October 20th and 21st, Grand Master, accompanied by Master Tian-Ping and Paul Wang (a Tian Gong practitioner), made a road trip to Mt. Shasta for cultivation and paranormal observation. Mt. Shasta, located in Northern California near the Oregon border, is a well-known sacred mountain that draws spiritual seekers from around the world. They stayed overnight in Shasta City.

Grand Master and Master Tian-Ping remotely viewed the mountain and discovered that it is connected to the civilization of Mu. Mu was a continent that sank into the Pacific Ocean 150,000 years ago. The three of them and Tian Gong

are deeply connected to this mystic mountain and the Mu continent. The universal messages revealed to them said that if humans could figure out the mysteries of Mt. Shasta, half of the human developmental history on Earth would be understood. Mt. Shasta is a great treasure and needs to be further studied by Tian Gong practitioners. Tian Gong practitioners should connect with Mt. Shasta and report to the Tian Gong organization any information that they receive. In October of 2005, Grand Master and a group of students will make another trip to the famous mountain for additional paranormal research.

On October 23rd, Grand Master, Master Tian-Ping, and Wen-Shu Lu (the Vice President of the TGIF Board of Directors) went to Southern California to hold the first Los Angeles KDD seminar. The Los Angeles KDD seminar was hosted by Ted (a Tian Gong instructor), his boss Beryl, and other enthusiastic practitioners. 33 people attended the seminar. It wasn't easy to organize an event in a city where Tian Gong is relatively new and the organizers are busy with their jobs.

During the event, Grand Master and Master Tian-Ping thoroughly investigated the causes of the disturbances and worked diligently to remedy the problems. It was a huge task to do in one day, especially for Master Tian-Ping. Grand Master made a comment that this event created a foundation group of Tian Gong enthusiasts in Southern California that will continue to grow, enabling the steady development of

Tian Gong in America.

On October 30th and 31st, Grand Master and Wendy Zhang (a Tian Gong instructor from Sacramento) conducted a Bronze Bell Practice (A1-1) class and a Celestial Palm Practice (A2) class in Los Angeles. Most of the students who participated had attended the previous week's KDD seminar.

On November 6th and 7th, Grand Master offered a series of seminars on the body and soul in Santa Cruz. The four-part series of seminars consisted of:

Seminar 1: Distant Group Yin Feng Shui Adjustment

Seminar 2: Applying the Immobilization Method to Detoxify the Body, and then transmit energy to the internal organs and the body

Seminar 3: Activating Celestial Language for Soul Cleansing and Repair

Seminar 4: Conversing with the Soul in Celestial Language to Adjust Family and Other Interpersonal Relationships

This was the debut in America of these four seminars aimed at healing the soul and promoting the soul's health. Each seminar lasted 3 hours and the total number of attendees was 192–28 of whom attended all four seminars.

The most popular seminar was the Soul Cleansing and Repair. One of its methods was the soul retrieval. At the seminar, over 10 students raised their hands when asked if one of their three souls was missing. After the soul retrieval performed by Grand Master, only one person stated that the missing soul had not returned. The remainder acknowledged that the soul retrieval was successful. Grand Master further verified that they were indeed correct. Also, most of the students stated that

WORKSHOP ON DISTANT ADJUSTMENTS ON FAMILY AND PERSONAL RELATIONSHIPS

(Continued from page 15)

On September 17 and 18, one of the workshops in Grand Master Le-Tian's energy-transmission seminars, at the Hungarian Center in Berlin, was, "Adjusting Family Relationships and Personal Relationships". Of the 250+ participants, over half raised their hands to indicate that during the "adjustment

process" they had felt the "current of love" received from the parties they had been in conflict with, and/or they felt that the other party had received messages of forgiveness and love sent out by them. Many participants cried and were deeply moved and touched by the healing.

Instructions on "How to obtain good responses /results:

Bathe/shower and change into neat/clean clothing immediately preceding the workshop.

Come with sincerity

Individuals can come representing their friends, relatives, family, or colleagues and transmit the message received from the workshop to their loved ones.

DO YOU HAVE A STORY?

If you have a testimonial or experience about Tian Gong and would love to share please send your story to:

WORKSHOP ON DISTANT FENG SHUI ADJUSTMENT CONT.

5. Distantly bring in positive energy into the house in replenishment.
6. Give simple guidelines on how to protect/maintain the good Feng Shui in the house after the workshop is over.
7. Sing the Celestial Song to transmit Positive Energy to all group participants, for healing of illnesses and strengthening health.

Guidelines for obtaining optimal benefit from the workshop:

1. Participants should bath/shower, change into clean clothing preceding the workshop.
2. Come with sincerity.
3. Come with a calm state of mind, free of expectations, and minimize any strong motivations for gaining personal success.

UP COMING EVENTS- CHECK WEBSITE FOR MORE INFORMATION ON UPCOMING CLASSES AND WORKSHOPS-WWW.TIANGONG.ORG

April 2, 3	Grand Master will hold a 2-day Immobilization Practice (B2-2) healing workshop in Union City (Prerequisite for C1-1 class on Apr. 30 & May 1.)
April 8	Evening, Grand Master will hold a Karmic Disturbance Disorders (KDD) lecture in Santa Cruz.
April 16	Grand Master and Master Tian Ping will hold a KDD workshop in Los Angeles.
April 17	Grand Master and Master Tian Ping will hold a Celestial Swallow Practice workshop in Los Angeles.
April 23	Grand Master and Master Tian Ping will hold a KDD workshop in Santa Cruz.
April 24	Grand Master and Master Tian Ping will hold a KDD workshop in Marin County.
April 30, May 1	Grand Master and Master Tian Ping will hold a Celestial Kidney Practice (C1-1) Workshop, connecting the participants to one of the Advanced Level secret techniques (Tuo Tai Huan Gu Technique), in Union City. "Tuo Tai Huan Gu" ("Tuo Tai" has to do with utilizing Celestial Energy from the Universe for Soul Cleansing, followed by casting off the layer(s) of sheath covering the Soul, thus allowing the Soul to emerge in a purified state; "Huan Gu" has to do with the utilization of the same energy as a catalyst for transforming a person's ordinary skeleton into the luminescent Energy Skeleton) is an ancient cultivation technique used by the Immortals of China, and has long since been extinct. It is thus a true blessing for Humanity as this secret practice is again revealed to the world. With respect to the aim of "Saving the Earth, Saving Humanity, Saving Oneself", this practice indeed plays a very important role. The Celestial Kidney Practice is Tian Gong's first step in its undertaking of Improving the Quality of the Human Race. (For details & prerequisites see Recent & Upcoming Events page.)
May 1	Tian Gong Day From beginning of May to middle of June: Grand Master will join Tian Gong events in various countries in Europe and hold a one week Celestial Kidney Practice (C1-1) workshop at Hartz mountain in Germany.

WORDS FROM GRAND MASTER- ON MYTHOLOGY CONT.

(Continued from page 1)

Humans to regress from a Matriarchal to Patriarchal Society creating family, ownership, and war.

The origins of the mythical characters fall into the following three categories:

1. Higher Wisdom Beings from Higher Dimensions-Christian God, Angels, Chinese Jade Emperor (supreme deity in Taoism), and Heavenly Mother (leading Chinese Taoist goddess).
2. Half-god and half-human beings from a past

era or remote antiquity of the current era- they are kings or famous persons such as: Fu Xi, Nu Wa, the Yellow Emperor, the Yan Emperor, Chi You, Chang Er. Beings such as Poseidon, Apollo, and Diana were the kings, princes, or princesses of the Atlantean civilization and the representatives of the fifth-dimensional beings on the earth.

3. The great cultivators from the current era, who transcended into Universal Beings after their passing-famous persons, such as: Lao Zi, Lu Dong-Bin, Cao Guo-Jiu, Han Xiang-Zi, Xu Xun, and Guan Yu.

WORDS FROM GRAND MASTER ON ANCIENT MYTHOLOGY IN CHINA: THE WAR BETWEEN YELLOW EMPEROR AND CHI YOU

5,000 years ago, a war erupted between the Yellow Emperor and Chi You. The war was not a primitive combat among aboriginals in the form of rock-throwing or stick-fighting. Instead, it was a battle of gods, half-god humans, and humans with superior minds that was more advanced than modern warfare. At that time, the Universal Super Wisdom Beings, the deities from the above, were involved with both sides of the battle. According to history, Chi You had 81 brothers who had animal bodies, bronze heads and iron foreheads, cow ears with hairs as hard as shields, heads with horns that could sting people, and they spoke human languages. They ate sand, stones, and iron pieces. They were competent in making weapons and famous as excellent fighters. Chi You was extremely ambitious and intended to take over the northern portion of the Yellow Emperor's kingdom. A fierce battle broke out in the Chinese city of Zuo Lu in the He Bei province. Chi You's army was comprised of very brave and fearless giants. Chi You further demonstrated his paranormal ability by filling the battlefield with a dense fog so that the Yellow Emperor's army could not tell which direction to attack the enemy line. Feng-Hou, the Yellow Emperor's prime minister, invented the compass to guide the army out of the enemy's trap. The Yellow Em-

peror requested help from the winged Ying-Long who attacked Chi You with water. Chi You then called upon his *Wind Uncle and Rain Master* to assist him with winds and rains that Ying Long could not defend against. Eventually the Yellow Emperor's army was defeated.

In the end, the Heavenly Maiden Han-Ba was summoned to rescue the Yellow Emperor because she was a powerful *Drying Goddess*. She emitted intense heat out of her body to evaporate all the wicked wind and rain created by *Wind Uncle and Rain Master*. Furthermore, the Yellow Emperor asked for the assistance of Kui and the Thunder Deity from the Eastern Sea. He used Kui's skin to make a huge drum and Thunder Deity's bone to make a drumstick. The war drums shook the sky, the mountains trembled and the earth moved. The sound vibrated for 500 miles around. After nine sets of drumming, Chi You could no longer ride the clouds nor navigate the fogs. Most of his troops had been shaken to death.

The Yellow Emperor then summoned all the animals on the land, such as the brown bears, wild beasts, pixius (a Chinese mythical animal), tigers, and all the animals of the sky, such as hawks, eagles and sparrow hawks to form the forefront of his troops. He then commanded them to attack Chi You from all directions. This was a large-scale naval, land, and aerial battle. In the most critical moment, the Heavenly Emperor sent the Black Lady with Human Head and Bird

Body from the Ninth Sky. She personally taught the military strategy to the Yellow Emperor. He utilized this strategy to command his troops and finally captured Chi You in Ban Quan.

Chi-You, with his bronze body and iron bones, was cut into pieces by the Yellow Emperor. His head was buried in Shou Zhang city in Shang Tong province and his body was buried in Ju Ye city. In the Chinese Tsin Dynasty (265-420 A.D.), someone dug into his tomb and removed his bones. The bones were as hard as steel metal, and there were two unbreakable teeth. After Chi You's death, the Chinese worshiped him as the War Deity and honored him along with the Yan Emperor and the Yellow Emperor as the three earliest Chinese ancestors. This battle was definitely not one fought by primitive people eating flesh and drinking blood.

"it was a battle of gods, half-god humans, and humans with superior minds that was more advanced than modern warfare."

AMERICA NEWS BRIEF CONT.

(Continued from page 2)

their wounded soul had been healed to various degrees.

In the Adjusting Family and Interpersonal Relations seminar, all participants who came as couples knelt down together to cleanse their souls and send love to each other. Some were so moved by the love they felt, they were in tears.

The four seminars were a success. The students related there ought to be more classes like these due to the importance of our soul's health. People in today's society focus on their physical health and neglect their spiritual health; the superficial is placed above the essential. An urgent correction to this neglect is needed. 23 people signed up for the Celestial Language class that followed the next weekend.

On November 13th and 14th the International Tian Gong Academy (ITGA) held the Celestial Language class in

Union City, located in the San Francisco Bay Area. It was attended by 28 people.

What is Celestial Language? Celestial Language is the language of the Soul. This language serves as a communication bridge between earth people and Higher Wisdom Beings plus all other three-dimensional souls, whether living or passed-over. It is an important class for us in order to pursue a positive future for humanity.

The class had three sessions and lasted one and half days. Grand Master personally activated the Celestial Language and Songs ability for all the students. The success rate among the students in being able to use the new abilities was 100%. Grand Master also taught the following methods:

Celestial Language

Soul Cleansing

Celestial Writing

Enhancing Meditation

Optimum Healing

Consciousness (Wisdom) Raising

Celestial Painting

By the time the class ended, all the students had big smiles and were excited to continue practicing at home. More than 10 students signed up for the Celestial Vision and Celestial Hearing classes in December.

On the weekend of December 4th and 5th, ITGA held the Celestial Eye and Celestial Ear Activation classes in Union City. The seminar lasted one and a half days. Grand Master taught and then activated all 28 participants. Again, many profound experiences occurred and were shared by the participants.

“Some were so moved by the love they felt, they were in tears.”

EUROPEAN NEWS BRIEF

On September 17th and 18th, Berlin Tian Gong Institute invited Grand Master Le-Tian to perform two demonstrations of energy transmission and Qi capability in the Berlin Hungarian Cultural Center. More than 250 people attended.

The attendees included Tian Gong practitioners, people with illnesses, and Tian Gong enthusiasts from throughout Germany. Tanya is a Tian Gong practitioner who lives in Pappenburg on the Western German border with Holland. She participated in the three-

day Karmic Disturbance Disorder (KDD) Healing workshop in May and experienced incredible effectiveness. Therefore, she rented a bus and brought 27 people to Berlin for the September event. Afterwards she highly praised the event and remarked, “It is such a pity that we live so far from Berlin.”

During the first demonstration, three practitioners who had attended the KDD workshop in March gave testimonials of its effectiveness. One lady was healed from severe arthritis afflicting her

entire body. Another gentleman, about 50 years old, recovered from a serious breathing difficulty he had suffered from since the age of three.

The most amazing case was Konrad's. He had had a strange ailment for years that required him to be hospitalized 5 days every two weeks. This hospitalization cost 2000 euros per day. Since the KDD workshop, he has not gone to the hospital and has not taken any medicine or shots for 19 days. He

(Continued on page 5)

WORKSHOP ON DISTANT ADJUSTMENTS ON FAMILY AND PERSONAL RELATIONSHIPS

Everyone needs and hopes for a harmonious family environment and good personal relationships.

In today's world, relationships between people are increasingly becoming less harmonious, and more stressful. Husbands and wives are antagonistic towards each other, fathers and sons are in conflict, neighbors quarrel, and co-workers are hostile. Some relationships, because of some insignificant matter, end up in tragedy. It's as if as soon as a human being arrives on Earth, he or she is doomed to a whirlwind of conflicts, struggles, strife and disharmony. Many people feel powerless in the face of this phenomenon, and just keep enduring their difficult relationships day to day. Their ongoing suffering is due to the inability to find and realize the original cause of the disruption. The cause is hidden behind and deep within their troubled relationships.

The Chinese have a comprehensive but pointed saying: “Between husband and wife there are either good or bad karmic connections. Without such connections they would not have met each other. Children are born either coming to ask for the ‘clearing of debts’ owed to them, or the ‘paying off of debts’ owed to their parents. Without this debt factor, they would not have been born to these specific parents. For the involved parties, conflict, disharmony, struggle, hatred or ‘taking revenge’ on each other is due to ‘negative connections’ and ‘unpaid debts’.”

The true root cause of disharmony in personal relationships resides, for the most part, in events which can be traced to the previous life or lives of each person. The antagonists are the Souls of both parties carrying out actions stemming from “karmic debts” carried over from the previous life experiences. The physical bodies on both sides are merely carrying out orders passed down by their Souls. The real and true instigators are the Souls.

In order to resolve the problems of disturbed family and personal relationships, the issues must be resolved on the Soul Level. The key is having the Souls of both parties resolve the debts involved, thereby lifting and resolving the negative, or even “malicious and bad” karmic ties. To achieve this goal is not easy!

Many individuals, families, (or even companies) desire to be free of the struggles and suffering in relationships in order for their lives to be full of joy and happiness, their families full of harmony, and their society full of light! Unfortunately, they have not been able to find a good method to help them, and in turn to help the World.

Tian Gong Grand Master and Tian Gong Masters have a methodology to heal and restore Interpersonal Harmony:

Grand Master Le Tian and the Tian Gong Masters achieve this healing by using the methodology of gathering and transmitting high energy information/messages and signals from the Universe in conjunction with special methods and techniques to involve the souls of both parties in a dialogue. Through these processes the hatred and issues of debt can be resolved and the souls helped to reach a peaceful solution.

Tian Gong International Association in collaboration with Berlin Tian Gong Institute have held workshops on “Adjusting Family and Personal Relationships” in Berlin. These workshops have been highly regarded and appreciated by the participants. In these workshops there have been frequent testimonials made by students repeating the course:

A participant related how her daughter had not been in touch with her for more than three years. She had not told her mother when she married. The mother was ecstatic when immediately following the relationship workshop she received a message on her telephone answering machine of the “warmth-filled” voice of her daughter.

Another student, after the workshop, met her son awaiting her on her doorstep. Six months previously, after a family conflict, he had cut off all contact. During the entire period no one had known his whereabouts.

A participant had two sons that argued and fought with each other for many years. After a “Distant Adjustment of Family Relationships” healing workshop they became friendly with each other and no longer fight.

Two days after the workshop, one student unexpectedly received a gift from her daughter.

A student from China telephoned her parents right after returning from the workshop to investigate how the relationship of her parents had improved. They customarily fought and argued. She had transmitted Grand Master Le-Tians' message to them during the workshop, sending out “well meaning wishes” to help her parents' relationship re-harmonize. When her mother received the daughter's phone call in Beijing, her first words were, “Your father was wonderful today! Ordinarily, I wash the bowls and pots and do the housework, but today your father voluntarily did the housework.”

(Continued on page 16)

“Between husband and wife there are either good or bad karmic connections. Without such connections they would not have met each other.”

EUROPEAN NEWS BRIEF CONT.

(Continued from page 13)

tice and Grand Master gave them personal instruction on the Pathway-to-the-Universe Practice (Tong Tian Gong).

Recently, reports of good news came from Beslan. The insomnia and disturbed sleep patterns of the children and adults who visited the Tian Gong Institute decreased significantly. The results were quite amazing.

Tian Gong's involvement in this event allowed Tian Gong to accumulate useful reference information and first-hand experience with respect to helping people recover from psychological and Soul injuries due to disasters.

On December 10, 2004, more than 80 Tian Gong practitioners gathered in Fu-How Chinese restaurant to have a Chi-Infused Christmas Dinner with Grand Master Le-Tian. More than 10 people expressed regrets for not being able to attend due to lack of space with late registration. Even though the dinner was scheduled to begin at 5:00pm, the event was delayed over an hour due to Grand Master and the two Masters working overtime to complete the individual healings for the surviving children. Touched by their dedication to the service of others, all the practitioners waiting gave them enthusiastic applause when the three finally appeared.

The dinner event was permeated with the holiday cheer. The special vegetarian menu had been selected by the restaurant and was enjoyed by all. In anticipation that next years' dinner event, some practitioners suggested that the yearly

dinner event be held on two days, thereby allowing more people to share the joy of *Sho-Lien** with others. Towards the closing of the event, several representatives of the group came up to Grand Master and the Masters to offer a gift, a song and to convey the deep appreciation of all the students for their teachers' dedication and hard work in serving others.

From December 16th to December 23rd, Grand Master led a group on a cultivation journey to Egypt. The participants were Master Tian-Ping, Master Tian-Ing, and two others. In the short period of eight days, Grand Master led the group south from Luxor via Edfu. They visited Kom Ombo in the evening, and spent the night in Aswan. They continued their journey south until they reached the Southernmost sacred temples in Egypt. Then the group traveled north until they reached Alexandria, the Northernmost city in Egypt, which overlooks the ocean to Europe. They ended the journey at Giza, southwest of Cairo, visiting the three great pyramids and the Great Sphinx.

Throughout the entire journey, Grand Master, Master Tian-Ping, and Master Tian-Ing conducted a special exploration and study of the Valley of the Kings, Abu Simbel Temple, Philae Temple, Horus Temple, Kom Ombo Temple, and the city of Alexandria. They especially focused on the areas of the mysterious three great pyramids

and the Great Sphinx. Their research on and communication with the sacred deities, mythological and historical figures dating back to ancient Egypt and Greece, was especially thorough and detailed. They obtained relevant information on crises the Earth and humanity is currently facing. This information is a precious resource for *Sho-Lien** purposes. Grand Master, Master Tian Ping, Master Tian Ying, and the group also performed successful Energy Field Cleansings and Clearings along the banks of the upper and middle Nile River and on the three great pyramids at Giza.

What is Sho-Lien?

Sho – Developing higher virtue, spiritual health and growth, and soul purity by receiving "high energy information" transmissions and dedicating oneself to living a life style of "virtuous thought, virtuous speech, and virtuous deeds".

Lien – An individual's improved physical health and body purification through receiving "high energy information" transmissions and dedicating oneself to Tian Gong practice.

WORDS FROM GRAND MASTER: BROKEN-ARM VENUS—FROM GREECE

Venus, a goddess from the planet Venus, was sent to Earth as a representative to educate and develop the earthlings. She was worshipped by the Atlantean people as the goddess of beauty, love and peace. In the Louvre Museum in Paris there is the world-renowned broken-armed statue of Venus. What she looked like before breaking her arms, nobody knew. In July of 1999 we finally solved this mystery.

In Greece we took a ferry from the island of Crete to the island Milos where the broken-arm statue was discovered. On the ferry, Master Tian Ing used her third eye to view Venus standing on a flat area half way up the hill on Milos. She was extending her welcome to us. After landing, we found the spot where she was standing earlier and also where her statue was originally unearthed.

Venus's energy body appeared before us. We respectfully inquired what the statue looked like before her arm was broken off. She immediately posed a gesture that Tian Ing could view. Venus had one arm with sword fingers (forefinger and middle-finger) pointing up toward the sky and another arm with sword fingers pointing down toward the earth. Her body resembled an S shape. She further explained: "The Connecting with Heaven and Earth posture was one of the Atlantean people's postures of physical and spiritual cultivation."

EUROPEAN NEWS BRIEF CONT.

(Continued from page 4)

threw his cane away and is able to walk on flat ground. He experienced a great change physically and psychologically. In less than 3 months this has saved the insurance company about 120,000 euros. The entire audience applauded his success.

The second demonstration involved the three-year old daughter of Mr. Chow, a visiting scholar from China. The little girl had suffered from an incurable disease called Mediterranean Anemia. To stay alive, she needed a blood transfusion every 20 days and a daily shot in the belly. Ms. Chow, a university professor from China, held her daughter during the two meditation sessions with Grand Master. During the first session, Master Tian-Ping spotted through her third

eye the face of a monstrous spirit emerging from behind the girl. Immediately, Grand Master sent energy to the girl and the spirit moved one meter away from the girl. In the second session, the girl suddenly got up and ran around the facility. The parents, holding the girl still, revealed the severity of her sickness and the dramatic change in her that day. Ms. Chow cried non-stop. Grand Master requested that everyone extend an apology to the revenge-seeking spirit and requested the spirit to resolve its hatred so that both parties could move on with their bright futures. The loud applause from the audience sent the spirit 5 meters away from the girl.

In both events, Grandmaster demonstrated to the participants

various energy transmissions using extraordinary abilities given by the Universe. This included the following:

- Quitting smoking, alcohol and various addictions
- Distant adjustment of Feng Shui and interpersonal relationships
- Pain relief
- Celestial Language activation for self-purification of the Soul
- KDD healing
- Using *one-thunder-and-silent* method to eliminate tumors, cysts in

(Continued on page 7)

WORDS FROM GRAND MASTER: MODERN MYTHOLOGY - LITTLE ANGEL FROM MADRID

On August 9, 1998 after completing the Tian Gong retreat in the Spanish city of Valencia, I took a few students on a train heading for Madrid for a two-day cultivation journey. German Tian Gong practitioner Mr. Wang and his girlfriend Ms. Le arrived in Madrid one day earlier to be our tour guide. After an afternoon of sightseeing, we headed downtown to an excellent restaurant they had just discovered the day before. I asked them not to mention the restaurant's name because I wanted to do a little experiment. We requested a Higher Wisdom Being to descend to assist us to locate the restaurant without the assistance of Mr. Wang and Ms. Le. They were quite doubtful about our success, but they agreed to stay behind us and not help.

I sent out the message to ask for a Higher Wisdom Being while Master Tian Ing observed the Being using her third eye. Upon my speaking Celestial Language, Tian Ing saw immediately an angel in white with wings descended. Of course this angel was "Yin" (as of in Yin/Yang) in nature and not visible to our physical eyes. Less than one meter tall, he cutely waddled to lead us through the streets and alleys into a middle-sized street. Halfway on the right side the angel stopped by a small door, led us inside and then turned left to go upstairs. There it was. A grand Spanish restaurant and we were signaled to sit. Mr. Wang uttered with surprise, "This is indeed the restaurant where we ate last night!" I was so impressed with the unique dishes here that I decided to invite Grand Master here. This is miraculous!"

The little angel requested a seat to the right of me and, upon our request, ordered the dishes and some wine. I began to wonder whether he had made a mistake ordering the wine since none of us drank. He also pointed out the table across the room where Mr. Wang's party sat and dined the night before at 10:15pm. Mr. Wang was further shocked because he was exactly right about both the table and the time.

Ready to eat, I noticed Ms. Le's face turned pale. I asked, "Are you having discomfort?" She then told us she was having stomach problem. Madrid's temperature was reaching 41 degrees Celsius and she might be suffering from heat stroke. She felt nausea and had no appetite. I asked whether the angel could help her get well. The angel agreed.

Viewed from the third eye, he walked to Ms. Le and pulled out the negative energy from her stomach several times. He then opened up her stomach and intestines with a "knife", flushed them with water, dried them under the sun, returned to his seat and drank some wine. Then I realized that even though none of us drank, he had ordered the wine for himself. After drinking one third of the wine, he went back to cleanse Ms. Le's stomach and intestines, dried them again, and put them back together. At the end, he said, "All done!" Then he bowed with his palms together in front of his chest and disappeared. At that moment I noticed that Ms. Le's facial color had returned to normal. She also stated that she felt completely well, comfortable, and had a good appetite.

WORKSHOP ON INTERNAL ORGAN CLEANSING AND TOTAL BODY CLEANSING

What is meant by Internal Organ/Total Body Cleansing? Why is there a need for Cleansing?

The internal organs as well as the entire physical body of the human being contain an enormous amount of toxins, impurities, and negative energy. The source of this contamination includes food, medications, chemicals used in daily life, air pollution, plus various negative emotions/thoughts generated by "human mental/emotional functioning". If these toxins are not cleared from the system, they will eventually clog the meridian (or energy) channels of the body. This will negatively affect health, cause illness, and even shorten the life span. Tian Gong, and Tian Gong Grand Master and Masters, by utilizing special energy transmissions from the Divine Universe, are able to engage in the work of cleansing the physical body and internal organs, eliminating from the human organism these lodged and stored toxins. Health is then improved and illnesses can heal. Even if symptoms of illness have not yet manifested and medical check-ups have found nothing to confirm health problems, it does not necessarily mean that an individual is healthy. By the time an individual is diagnosed with an illness detectable by medical diagnosis, the toxins have accumulated to a dangerous level. Successful treatment at this stage may be difficult to achieve. Therefore, many people, even though appearing healthy, are in actuality unhealthy and in need of internal organ and total body cleansing.

Who can benefit from this type of cleansing?

1. Individuals whose Internal Organ and Physical Body Diseases have progressed to an advanced stage.
2. People with weak internal Chi (energy), manifesting as, for example: ringing in the ears, "hard-of-hearing" or deafness, or in general, as a chronic illness or health problem seemingly untreatable by conventional medical specialists. In such cases, a contributing cause can be weak kidney Chi resulting from the accumulation of toxins in the kidneys. Another example can be in patients with heart palpitations of unknown etiology. The real cause of the problem may be the presence of negative energy/toxins. By clearing the negative Chi and bringing in positive energy in replacement, the condition may be totally resolved.
3. People with Karmic Disturbance Disorder (KDD) Internal organ/ physical body cleansing is good preparatory work for attending a KDD healing workshop. For individuals with KDD who have already undergone the process of clearing of attached Souls, the follow-up work of internal organ cleansing will help reinforce the positive response.

What are the Structure/ Contents and Results from Participation in the Workshop?

Instructions for and practice of Celestial Pagoda Practice, to achieve resonance between the Universal, Earth, and the Human Energy Fields.

Chi-infused Introductory Lecture on Internal Organ/Physical Body Cleansing and related subjects.

Grand Master transmits to participants Universal Energy to accomplish the work of Cleansing. Immediately following the cleansing many participants will feel tired. This is due to the void created in the body by the clearing of negative energies, toxins and impurities. All of these had previously occupied the space in the internal channels of the body. This void is yet to be replenished with positive energy, resulting in a temporary period of fatigue. Grand Master will remedy this by transmitting positive energy to all participants, replenishing the previously voided energy space.

Grand Master sings the Celestial Song to send Healing Energy to the entire group and distantly to their family, friends, and relatives.

Those who have good responses from the cleansing will appear more relaxed, younger looking and have much stronger immunity from disease. It will also be easier for them to activate latent potentials and to manifest extraordinary ability.

Workshop in Santa Cruz. Land of Medicine Buddha.

EUROPEAN NEWS BRIEF CONT.

(Continued from page 9)

This session was hosted by Master Tian-Ing, the president of Berlin Tian Gong Institute. Grand Master Le-Tian gave a speech. In his speech, Grand Master pointed out that at the present moment, with only 30% of the available energy remaining, the Earth is in crises. Therefore, it is imperative to mobilize the world population of six billion people in a concerted effort to save the Earth. Through the act of saving the Earth, we save ourselves.

Grand Master also alluded to the well-recognized saying by Master Hui-Neng (6th patriarch in the lineage of Chinese Zen Buddhism) of "the lowest person may have the highest wisdom." This illustrates that every ordinary person, just by an act of a simple virtuous thought, may release and transmit a tremendous amount of energy. This energy makes a big difference in the context of an individual's participation in the Grand Undertaking by the Universe of "Saving the Earth, Saving Humanity, and Saving Oneself."

During the session, practitioners began by speaking the Celestial Language for self-cleansing of the Soul for 15 minutes. This was followed by 40 minutes of meditation. Grand Master concluded the program by singing the Celestial Song to transmit healing energy to all participants.

On December 10th, a group of special guests arrived at the Berlin Tian Gong Institute—the survivors of the hostage incident in Beslan, Russia. They included 10 children with ages ranging from 7-17. They were accompanied by several mothers,

one physician, a 26-year-old teacher, a volunteer from Chernobyl and her daughter, and a person who directs a German charitable organization.

Grand Master Le-Tian, along with Master Tian-Ing and Master Tian-Ping, conducted special soul readings and energy adjustment/healings to these guests. It was shocking to realize the degree of psychological trauma sustained by these innocent little angels. Through observations with the third eye, the Souls of these children were found to be severely traumatized, becoming incomplete or lost. They also had impaired kidney function and had not recovered from the emotions of extreme fear and grief.

Within a few boys in the group, seeds of hatred had already been planted. Without immediate intervention and guidance to release/heal these negativities, it would be hard to say what crises might emerge when they grow up. Some children carried heavy guilt for not being able to help their classmates /siblings to escape. Some surviving mothers carried a heavy cross for their inability to have saved their own children. One mother, who accompanied her 7-year-old daughter to Germany, was constantly remembering the shocking scene where her 7-year-old-twin boy was killed. Another mother, who accompanied her 17-year-old daughter, was grief-stricken from losing her beloved son.

Grand Master Le-Tian asked the 26-year-old teacher Elena: "how many hostages were killed?" She answered, with tears in her eyes: "We are not sure about the exact figure. More than 1500 plus

people attended the school opening ceremony, but only about 500 people escaped."

For more than three hours, Grand Master and the two Tian Gong Masters worked with loving hearts. They repaired the Souls for the children and the adults, and received a good response from them. Many children raised their hands to show that positive effects were felt. The mothers, psychiatrist, and coordinators of this meeting were full of gratitude and thanked Grand Master, the Tian Gong Masters, and the Tian Gong work staff involved. Elena said: "our hearts have now become one."

After a group photo was taken, the children were still quite enthusiastic and further requested to take individual pictures with Grand Master Le-Tian and the two Tian Gong Masters. They also proposed to come again to learn Tian Gong practice before leaving Germany. Master Tian Ying offered, if needed, to send Tian Gong volunteers to Beslan where they could reach out to more survivors and their families.

At the closing, every guest received gifts: a Tian Gong emblem, a safety card, and a Relaxation CD. All the children put the emblem on their clothing in the upper chest area before reluctantly leaving the Tian Gong Institute.

On the evening of December 15th, the children from Beslan returned to the Institute. They participated in the weekly Tian Gong group prac-

(Continued on page 14)

"Souls of these children in general were found to be severely traumatized and even becoming incomplete or lost."

WORKSHOP ON DISTANT FENG SHUI ADJUSTMENT

What is meant by “Feng Shui”; what is Feng Shui Adjustment and how could it benefit you?

The study of Feng Shui goes back several thousand years in China. Guo Pu (or Guo Gong, “Gong” being a venerable title bestowed in respect) is the historical Founder of Feng Shui, and the designer and first Mayor of Grand Master Le-Tian’s home town in China. Tian Gong’s Feng Shui Theory/Practice System is based directly upon the message transmissions from Guo Gong and thus is very unique in its style among the different schools of Feng Shui.

Feng Shui is divided into Yang Residence (or House) Feng Shui and Yin Residence (or Graveside) Feng Shui. The following information refers to the Feng Shui of the Houses. House Feng Shui can be further divided into *Yang Feng Shui* and *Yin Feng Shui*: Yang Feng Shui has to do with the structural and organizational aspects of the home, such as, the proper furniture arrangements and the immediate external environment surrounding the house including the foundation. *Yin Feng Shui* is also known as *Energy Feng Shui*, and has to do with investigational and healing work done on the energy levels inside the house, immediately outside the building, again including the foundation. The evaluation is based upon gathered data on whether or not there is any negative energy present and impacting the Ying-Yang balance of the residence. Of utmost importance is the evaluation of whether there is a presence of “passed-over” Souls inside, around, and underneath the foundation area of the house which is causing disturbance. If “passed-over” Souls are found in these areas of the house, the health, marriage, relationship harmony in the household, academic learning in school, and the careers of the residents would definitely be affected in a negative way unless these Souls are removed.

Another way of looking at House Feng Shui is by evaluating the “health condition” of the house. A house is similar

to a Human Being, has a mouth (front door), eyes (windows), heart (master bedroom), gastrointestinal system (kitchen), elimination system (bathroom with toilets). The health of the household members may be affected according to where the negative Feng Shui is located. In many cases where people become ill, even extremely ill with terminal illness or experience difficult marital problems, ongoing conflicts among family members living in the same household, involvement in lawsuits, bankruptcy etc., these consequences are a result of passed-over soul(s) living in the residence and transmitting “negative” signals to the residents. “negative” refers to passed over Souls existing in the Yin or “invisible realm” which are composed of a different Yang, or visible, world. This can also mean “negative” in the sense of ill intended or malicious passed over Souls.

For example; if the Soul involved is found in the kitchen, the household members may develop ongoing gastrointestinal problems. If a seemingly well adjusted family moves into a new dwelling and the members suddenly develop conflicts, problems and or illnesses which do not seem to resolve, then the possibility of a Yin Feng Shui problem needs to be evaluated.

In these cases, the process of adjusting the Feng Shui involves performing a clearing on an Energetic Level or Yin Level. The steps in the process of “distantly adjusting” the Yin Feng Shui as performed by the Tian Gong Grand Master and Tian Gong Masters are:

Clear the grayish Chi and negative energy from inside the residences by sending it outside and away from the dwellings.

Communicate and make a re-

quest to any harmful Souls presently living inside the residences to leave the premises. If they are willing to vacate, send them to suitable places.

Bring in good energy both inside the residences and in to the area immediately surrounding them.

The format used in this workshop by both Tian Gong Grand Master and Tian Gong Masters for adjusting the Yang Feng Shui is different from other Feng Shui Masters and schools of Feng Shui in the following aspects:

1. Work can be done distantly: in adjustment and in working with Souls for their departure.
2. The Feng Shui adjustment can be done in a group format for many participants at the same time.
3. Positive energy is brought in for replenishment after the clearing.
4. The fees are much reduced and the format time- saving.

Workshop Structure and Contents:

1. Instruct and guide participants in the practice of Celestial Cross for (10 minutes), to purify the mind/heart.
2. Introductory Qi Infused Lecture on Feng Shui.
3. Distant clearing of the Greyish Chi and negative energy in the homes/offices of participants followed by distant adjustment of the energy level of the houses and surroundings of all participants.
4. Communicate and make a request of “passed over” Souls to vacate the premises; eliminate black Chi inside and surrounding the house.

EUROPEAN NEWS BRIEF CONT.

(Continued from page 5)

the breast, and various types of stones in organs, ear ringing, and deafness

Restore the normal cellular structure of the sick for health recovery by using Immobilization Practice.

When Grand Master applied the Immobilization Practice, only eight people in the audience raised their hands to indicate they were not immobilized. Some remained frozen and glued to their chairs even after Grand Master released the immobilization state. Kristine, a medical doctor, was stuck for another 5 minutes. The participants were astounded at such an incredible healing method.

Qi-Gong Teacher Training Program

Tian Gong practitioner, Ms. Tian Qi is a famous Chinese culture proponent and Qi-Gong practice advocate in Germany. Every year she sponsors the Qi-Gong teacher training program where various Chinese Qi-Gong styles are taught throughout Europe. This one-year program incorporates Qi-Gong and Chinese Medicine. The Western Qi-Gong teachers then go all over Europe to serve the important role in promoting Chinese Qi-Gong and medicine.

This year there were more than 50 attendees from various countries such as Germany, France, Portugal, Austria and Switzerland. Among the students were a university president, an ambassador’s wife, a medical doctor, psychiatrists, massage therapists, entrepreneurs, professional Qi-Gong teachers, energy healers and even advanced Qi-Gong Masters.

On the afternoon of Sept. 26, 2004, the year’s program came to an end. The day before, Tian Qi announced the exciting news that a special gift was going to be given to the students before the graduation: Tian Gong founder, Grand Master Le-Tian, would give a lecture and deliver an energy transmission. Everyone was pleasantly surprised.

Originally, Tian Qi was prepared to pay Grand Master for the lecture. He de-

clined and gave a free lecture to those “spreading seeds for the flourishing of Chinese Culture”.

The lecture title was, “How does a Qi-Gong Teacher Advance?” He taught about Celestial Language and its usage in soul cleansing. In addition, he dialogued with involved Souls to adjust everyone’s family and interpersonal relationships. The Immobilization Technique was utilized to heal the physical body. His lecture and demonstrations were received with such enthusiasm that some students expressed interest in collaborating with the Tian Gong organization to help share its benefits with others.

On Sept. 27th and 28th, at the Berlin Tian Gong Institute, Grand Master Le-Tian, Masters Tian-Ing and Tian-Ping held cultivation/healing seminars on soul cleansing and repair, physical healing, and internal organ cleansing. Each of the evening seminars lasted two and one half hours.

On the evening of Sept. 27th, the seminar on the Soul had 116 attendees. Almost half of them were new students, some coming from a great distance. Grand Master and the two Masters viewed from their third eyes that some students had only two out of three souls. They used the Soul Retrieval Method to restore the missing souls to the bodies of 35 students. The souls retrieved were not the lost ones but new ones from the Celestial Warehouse. The souls of more than 100 attendees had had some trauma. Each of the traumatized souls had various problems, such as stripe cracks with layers of wounds, holes, unclear edges, twisting, deformities, too small, too thin, and blackening. After connecting with the Universe, the three performed a group healing for all souls.

On the following evening the focus was on the healing of internal organs and physical bodies. Grand Master employed the *Immobilization Technique* for the healing of physical ailments. When the disorderly cells of the body and the internal organs were

inactive and therefore put into a restful state, the Universal Energy was introduced to work on re-establishing the smooth flow of Qi in the meridian channels and thereby restoring the normal molecular structure of the sick cells. Only about 10 people failed to be immobilized and Grand Master utilized other means in order to heal them.

During the seminars, Grand Master described the following:

- The Yin and Yang structure of human life.
- 3 Hun 6 P’o – The Ling (spirit) merges with the Three Hun to form Ling Hun (soul). Ling Hun is the human Yin side of life that embodies the sub-consciousness and is everlasting. The Ti (body) merges with Six P’o to form Ti P’o, the human Yang side of life. Ti P’o embodies consciousness and is temporal. 3 Hun 6 P’o integrates the human spirit and flesh, and refers to all aspects, the totality, of human existence.
- The highest dimension of spiritual and physical cultivations.
- The Inter-relationship between the human spirit and the physical body.

The importance of cleansing the spiritual body.

The students were able to take in the basic knowledge of Oriental and Universal cultures. They sincerely received the energy transmitted by Grand Master. Both classes turned out to be quite successful. At the closing of the cultivation classes, the students applauded time after time in appreciation of the special work of Grand Master and the volunteers.

On Sept. 29th, Grand Master, Master Tian-Ing, Rita, Kirstin and other practitioners visited the historic city of Wittenburg in Eastern Germany. There they paid homage to the city in which Martin Luther once lived and worked.

(Continued on page 9)

WORKSHOP ON SOUL CLEANSING AND SOUL REPAIR

The Human Being consists of both a physical body and a soul body. In a healthy human being both the body and the soul are healthy. Only by the soul body working together harmoniously with the physical body will the optimal health of both bodies be achieved and maintained. In many people, the soul and the body have ceased working together well. Often the soul wants to control the physical body, while the physical body seems to want to drag the soul downward. When a distorted, wounded soul attempts to control the physical body, this will cause the physical body to suffer tremendously, to lose its balance and eventually, to become ill. On the other hand, some individuals have good soul quality, but their physical bodies are either strongly driven by desires or have considerable toxic accumulation, causing blockage of the meridian channels. If this type of body is allowed to control and drag the soul downward, the soul will be subjected to tremendous suffering. People with strong desires will tend to drag their souls downward, degrading the quality of their soul.

The cradle of Western Civilization is ancient Greece. The greatest Greek philosopher, Socrates (469 B.C.-399 B.C.) gave this important viewpoint on the characteristics and structure of the soul:

The soul is indestructible.

The essence of the soul is self-functioning and automatic.

The soul possesses an inherent capacity for logical thought processes, and can order the movement of the body at will.

The quality of the soul can be ranked hierarchically. Plato, a student of Socrates, proposed the existence of three spiritual bodies or three souls for each human body. Aristotle, a student of Plato (also a teacher of Alexander the Great), likewise, felt that there is a difference in the quality of individual souls and also ranked them in a stair like manner, hierarchically.

The ancient Chinese sages were in agreement with the Greek Philosophers but went further in their investigations on the nature of the soul. They also concluded that every Human Being has three souls, each with its specifically assigned function. They believed that, due to differences in the quality of souls, souls at different levels can control and direct the physical body in such a way as to determine a person's thinking processes, speech, actions and consequentially, a person's level of morality. Further, they claimed that after a person dies and the physical body disintegrates, based on its soul's purity or level, the soul will be directed onward by the Universe to its specific destination. Basically, the soul will ascend to Heaven, reincarnate on Earth or descend to Hell. Tian Gong's Energy Information System takes in "information energy" on this subject from the lineage of Ancient Chinese Sages, Ancient Western Ideas and Theories of the Soul and continuously receives, directly from the Universe, new information pertaining to the Nature of the Soul.

Modern Medicine is currently focusing solely on the prevention and treatment of physical illness and has almost completely ignored, overlooked, and abandoned the areas of prevention and treatment of "soul illness". This has led to its inability to resolve the health problems and issues of Humans at their root cause. To make matters worse, new and different types of illnesses are now appearing and their numbers are multiplying rapidly. In the face of this problem and the already overwhelming number of life-threatening and even common illnesses, Modern Medicine is reaching an impasse and becoming quite stuck.

As soon as the soul reaches a healthy state, many of the causes of illness manifesting on the physical level will naturally heal without treatment or intervention. Therefore, developing and maintaining a healthy soul is a major key in solving the problem of physical illness. Making available a solution to the problem of soul illness will help contribute to healing and saving the Earth and will thereby promote World Peace.

Soul Cleansing/Soul Healing is a very important topic worthy of the attention of every Human Being. It puts forth questions and issues every individual must confront, such as:

How is the soul injured?

After a person dies, the physical body disappears, but the soul lives on. A large percentage of souls must go through the reincarnation experience repeatedly. In every lifetime hardships and suffering keep adding their imprints on the soul in the form of information signals. These signals leave signs and traces which accumulate in the soul and carry on from lifetime to lifetime. These accumulated injuries cause some souls to become incomplete, distorted in shape, or severely wounded and scarred. Some of these soul illnesses can be traced to multiple insults though many lifetimes, while others have their origin only in the present lifetime. For instance, as the result of being terribly frightened, one of the three

(Continued on page 10)

WORKSHOP ON SOUL CLEANSING AND SOUL REPAIR CONT.

(Continued from page 10)

revenge or of wanting to cause injury to others, ugly and distorted facial expression, low and petty behavior.

Patients whose souls are filthy, some even emitting a bad odor.

Symptoms: Very strong selfish negative desires, low honesty/sincerity level, soul will interfere with Sho-Lien* and positive action/progress attempted by the physical body.

Good responses during and after the workshop will depend on each of the participant's level of sincerity, persistence and self discipline in resisting desires old patterns of behavior.

Some people are able to observe good responses, seeing improvement in a variety of symptoms, including physical appearance and the body becoming stronger. Some people are in need of multiple sessions in the soul cleansing/soul repair workshop in order to get well. In order to deal with soul illnesses, one should be prepared mentally and emotionally for long term Sho-Lien*.

How does Celestial Language help in Soul Cleansing and Soul Repair?

Cultural Language is the language of the physical body, is governed mainly by the brain, and is the product of consciousness that operates on the surface level. Celestial Language is the language of the soul and is governed by the heart. It is the result of the subconscious manifesting itself. This type of language can be used in a dialogue with Gods and human/animal/plant souls, and can connect one to the Universe.

It is not difficult to activate Celestial Language. As long as one is able to leave the mind free of deliberate thoughts, in a state of Effortlessness, this type of language belonging to and hidden in the depths of the Subconscious will naturally flow forth. Celestial Language never repeats itself; it changes with the flow of the time-space continuum. After Celestial Language comes forth, do not doubt its authenticity, keep on speaking naturally and freely, and let the process run its natural course. The amount of Energy contained in spoken C.L. differs from person to person, the quality of Energy can also be different each time.

Adopting a humble, sincere attitude while using C.L. to self-cleanse one's soul, will give one good responses. This mindset will also help to improve one's physical health.

Attentive Items/Guidelines for adopting Celestial Language in Self-

Cleansing of the Soul:

Sincerity is the most important.

In your mind, think of the Universe and/or the Gods of your religion, and through Tian Gong's transmission, naturally harmonize the vibrational frequency of your body-mind-spirit Energy Field to resonate with that of the Universal Field, Earth's magnetic field, and Tian Gong's Energy Field.

Tian Gong Grand Master and Tian Gong Masters are able to use Celestial Language at will for communication, to connect to and to transmit the High Energy Information Waves from the Universe to heal, repair, and retrieve the lost soul of the individual. However, the prerequisite is: One must have sincerity, humbly receiving the Healing Energy.

What is Sho-Lien?

Sho – Developing higher virtue, spiritual health and growth, and soul purity by receiving "high energy information" transmissions and dedicating oneself to living a life style of "virtuous thought, virtuous speech, and virtuous deeds".

Lien – An individual's improved physical health and body purification through receiving "high energy information" transmissions and dedicating oneself to Tian Gong practice.

WORKSHOP ON SOUL CLEANSING AND SOUL REPAIR- CONT

(Continued from page 8)

souls of an individual may end up leaving the body as the consequence of such trauma. This leads to expressions such as “drifting” or “lost soul”. Manifestations of this type of phenomenon can be observed by noting a person’s mannerisms on the physical level. Observation, through the third eye opening, by both Tian Gong Masters and Tian Gong workshop participants, focused on observing themselves, concluded:

Typically, modern peoples souls are well experienced in the vicissitudes of human affairs, and are actually “ancient souls”. More importantly, the old soul that is completely healthy is as rare as the “feather of the Phoenix” and the horn of the Chinese mythical animal, Chi-Lien, said to appear only in times of peace and prosperity. In other words, there are no “perfect souls” found in this realm.

Why are sick souls in need of repair?

If a person is missing one soul and does not retrieve it, or if the soul that is sick does not go through repair/healing, not only will the individual’s physical body become ill, the reincarnation process will be impeded. Moreover, this will have a negative impact and will affect one’s chances of ascending to Higher Realms (Tian).

Why can’t illnesses of the soul be treated by Western Medicine?

How are the Tian Gong Grand Master and Masters able to treat the soul illnesses.

The soul body is an Energy Body and is made up of signal/message waves. The only way to treat and heal energy bodies made of signal/message waves is by using High Energy Information Signal Waves gathered from the Universe (“like treating like”). In treating illnesses of the physical body, one must use medicine, corresponding to the diagnosis. If the medicine does not target the illness correctly, instead of getting well, the disease may worsen. It is commonly seen that grave consequences will follow the administration of the wrong medication. It is then no wonder that when one uses medicine made up of “particles” (matter), to treat the soul, (an energy body made up of information waves), one commits the mistake of “using the wrong kind of medicine” and the outcome is not likely to be positive. The chronic use of chemical medications to treat soul illness will only make the illness more serious, driving patients up a dead end. Therefore, the soul can only be cleansed, repaired, healed of illness and strengthened by way of Spiritual Masters who are capable of communicating with the Universe. They are able to transmit the Universal Information and High Energy required for this type of healing work. For individuals whose soul-triad has become incomplete due to a missing soul, much stronger and more powerful Information Waves are needed to perform the task of Soul Retrieval.

People with the following symptoms will benefit from participation in a Soul Cleansing/Soul Repair and Soul Retrieval Workshop:

Patients who are missing one of the three souls.

Symptoms: Lack of concentration, short-term memory loss, pale complexion, anxiety, timidity, fearful, shy, loners, inability to communicate well with others or difficulty in socializing, thought process dull, slow in responding to external stimuli, slowness/clumsiness in physical movement.

Patients whose Soul is weak or low in energy.

Symptoms: fatigues easily, timidity, fearful, hesitant, unassertive/passive, lacking in self-confidence, and indecisive, low success rate in completing tasks / undertakings.

Patients whose souls have become incomplete or are covered with injuries.

Symptoms: Chronic difficulties, depression, mental suffering, crying for no apparent reason, inability to complete tasks undertaken, low success rate, lack of mental/emotional stability, lacking in life-goals, muddle-headed/confused, problems with family and personal relationships, difficulty in living independently, lack of persistence, marital and career problems, low school and academic performance, weak physical constitution, frequent illnesses.

Patients whose souls are distorted/twisted.

Symptoms: Frequent or persistent negative/harmful thoughts arising in the mind, a tendency towards feelings of

“If a person is missing one soul and does not retrieve it, or if the soul that is sick does not go through repair/healing, not only will the individual’s physical body become ill, the reincarnation process will be impeded”

EUROPEAN NEWS BRIEF CONT.

(Continued from page 7)

From Oct. 1st to 3rd, Tian Gong International Foundation and Berlin Tian Gong Institute co-sponsored a three-day Karmic Disturbance Disorder (KDD) healing workshop in the Institute’s Tian Hall. This workshop was hosted by Grand Master and assisted by Master Tian-Ing and Master Tian-Ping. Further assistance was given by Tian Qi. Eighty students from all over Germany attended. Many of them have had long-term afflictions with maladies that modern medicine has failed to cure. Most of them were equipped with a basic understanding about KDD and Tian Gong’s unique methods of resolution. Some had attended several KDD seminars and returned to take care of the still lingering passed-over souls. Others came to reinforce the previous healing effects, or to prevent future occurrence. Still others are dedicated to working to relieve the sufferings of human souls afflicted by KDD. There were five admirable mothers who came as surrogates for their children who were stricken with severe KDD. The healings and benefits were for their children and not themselves.

The three-day curriculum was arranged in a specific order. The teachers devoted themselves wholeheartedly to serving the students. The students became increasingly involved in the process. On the second day, the participants all reported a variety of sensations, such as fatigue, pain, insomnia, anxiety, discomfort. This is commonly experienced during or just prior to the passed-over soul’s departure.

On the third day the workshop reached a climax. Usually the last day is filled with some touching scenes in which the participants are reluctant to leave due to their overflowing feelings of joy and appreciation. That day was no exception. Some had not experienced much change after two days and were feeling a bit anxious. The Masters and staff comforted and reassured them that as long as they stayed calm and continued with the cultivation, they would leave with a smile on the third day.

Grand Master started off the third day by offering reassurance to all the students, saying: “the emphasis today will not be on the lecture, but rather on solving practical problems. This approach will surely bring satisfactory results for everyone.” During the class the Masters conducted investigations on every student’s ailment and verified whether the passed-over soul had left or not. For those attending in place of their children and people with severe maladies, they offered individual readings and powerful healings by the group. From time to time warm-hearted applause would explode, transmitting the Universal Energy. Some were so touched by this scene that they burst into tears. The entire classroom was filled with tears of love.

After the workshop the participants lined up in three rows to express their gratitude to Grand Master and the other two Masters. Those who had earlier doubted the workshop’s effectiveness stated that the passed-over souls had left. The grand hall echoed with words of deep gratitude.

On Oct. 9th and 10th, Berlin Tian Gong Institute conducted a Tian Gong Teachers’ Training that was attended by more than 40 students from all over Germany. They had already experienced Tian Gong’s benefits and were moved by Tian Gong’s mission of helping the Earth and Humanity. They had decided to dedicate themselves to serving and helping others through Tian Gong’s marvelous methods. Grand Master personally taught the group.

From Oct. 7th to 20th, Master Tian-Ying and Katrin conducted 13 seminars in Tenerife and Gran Canaria—the two most important islands in the Canary Islands. The format was different from past seminars. Master Tian-Ing lectured on relevant knowledge/information on the following topics: KDD, soul cleansing, Yin, energy, Feng Shui, and the Internal Organ Theory in traditional Chinese Medicine. She then performed KDD healing, soul cleansing, remote Feng Shui adjustment, organ detoxification followed by energy replenishment, and Tian Dao Gong (Introductory practices) teaching. Each seminar was attended by more than 40 people. They experienced more and more benefits as they gradually gained a deeper level of understanding of the material presented.

In the evening of Oct. 11th in Tenerife, Master Tian-Ing sent healing energy to help a 40-year-old gentleman whose neck was frozen. The neck pain began 16 years ago after a surgery to remove a tumor in his neck. Even worse, he was totally deaf in his right ear and partially deaf in the right. He had to wear a hearing aid and to read lips in order to understand what other people were saying. After 10 minutes of energy transmission from Master Tian-Ing, He could hear again and was moved to tears.

In Gadar City of the Gran Canaria Island, the population is only about 10,000, yet Tian Gong practitioners increased by more than 100 within 10 months. It all started at the end of last year when practitioner Rito, his wife, and Rita volunteered to teach Tong Tian Gong (one of the Introductory Practices). The classes were never advertised to the public, yet Tian Gong spread through their sincerity to help other people. On the last day of the seminars, Master Tian-Ing demonstrated the *One thunder in the Clear Sky - Most Powerful Method*. Afterwards, the ear ringing problems of two practitioners disappeared immediately and the tumors of four other persons shrank and softened.

On December 9, 2004, Berlin Tian Gong Institute held the last meditation session for the year. The theme of the meditation was to pray for Planet Earth. The session was attended by 109 people.
