1. How is the Earth ranked when evaluated within the context of the entire Universe? Based on our research and study, the Universe is comprised of 9 realms. These realms exist in order (1-9) within the time space continuum of the Universe. The Beings which exist within each dimension normally have perception of these dimensions relative to their specific realm (ex. Human Beings on Earth in the 3<sup>rd</sup> dimension perceive three dimensions, 4<sup>th</sup> dimensional beings perceive four dimensions etc.) The 9<sup>th</sup> realm (with nine dimensions perceived) is found at the deepest core of the Universe. Every realm is representative of a certain level of spiritual evolution; therein each realm reside beings of a corresponding type, with the most evolved beings found in the 9<sup>th</sup> realm.

2. In the Solar System, between Neptune and Pluto, there existed a planet called "Maya", which fell from existence long ago. How did it disappear? As

a dire consequence of the internal issues which existed on the planet it finally exploded. The Beings on Maya possessed highly advanced Science and Technology. As they knew in advance of the planet's impending annihilation, the majority of the population began migrating to other planets. Some of these Mayans ended up on Planet Earth and have been referred to historically as the Mayans residing in Central and South America. Some Mayans, however, stayed back with the intention to save that planet, but nevertheless were unable to alter its final fate of total destruction.

3. The Chinese have a saying: "Man is the Wisest of All Beings". This point is incorrect. It is not only erroneous to assume that Man is the most superior of all beings on Earth, but even more absurd to make this statement in the context of the larger Universe. Actually, there is a type of life form on our planet that is superior to Humans – the Beings of the 4<sup>th</sup> realm.

Even though they are invisible to the naked eye, these beings do in fact reside on Earth. They have usually been referred to as the "Gods", for example; Earth Gods, Mountain Gods, Ocean Gods, River Gods, Lake Gods, Forest Gods, etc.

These Gods are representative of the life forms on the 4<sup>th</sup> level of existence.

Currently, many Earth and Mountain Gods on Earth are undergoing a tremendous amount of suffering. They have been subjected to mistreatment and therefore have sustained severe injuries, causing their energy bodies to weaken. Their present plight is entirely the making of us Humans in the 3<sup>rd</sup>-Dimensional Realm.

4. The Earth is a living entity; just as a Human Being, it consists of both a physical body and a spiritual body. For both Human Beings in the 3<sup>rd</sup> Realm and the Gods in the 4<sup>th</sup> Realm, the physical body overlaps with

## NEWS AND TESTIMONIALS FROM AMERICA NORTH AMERICA NEWS BRIEF

### Journey to Mexico

From January 9<sup>th</sup> to January 20<sup>th</sup>, a group of seven Tian Gong practitioners consisting of: Grand Master Le-Tian, Master Tian Ying of Berlin Tian Gong Institute, Rita of Germany, Kerstin, Donna and Janice of the United States, and Javier of Spain journeyed to Mexico to conduct celestial research on the historical Mayan culture.

This unique group spoke 4 different languages, so each sentence spoken needed to be translated three times. Even so, because of the group members' cohesiveness and connection with Tian Gong, they were able to complete their research at many historical sites within a few days.

Some of these historical ruins included Teotihuacán's Sun Pyramid, its Moon Pyramid,

Uxmal of the Yucatan peninsula, Chichen Itza, Palenque, and, Tulum. The research was both highly meaningful and effective. Here are some highlights of this research:

At the historical site of Paleque, the group was able to have meaningful communication with the soul of the great Mayan King Pacal.

*(Continued on page 2)*

**JOURNEY TO MEXICO**

*(Continued from page 1)*

In Uxmal, the group was able to communicate with the Feathered Serpent God whose entire body was covered with wounds.

On the top of Kukulkan Pyramid in Chichen Itza, they received messages from the wise beings on Pluto informing them that mankind

should learn from the destruction of the Mayan Planet and the downfall of the Mayan culture.

On January 18<sup>th</sup>, in Chichen Itza, they assisted in the cleansing of the lost souls and the Qi energy field of the Yucatan Peninsula.

Grand Master in Mexico

**RECENT ACTIVITES**

From January to May of this year, Tian Gong International Foundation and Tian Gong International Association separately held eight sessions of Bronze Bell Class (A1), four Celestial Palm Classes (A2), one Feng Shui Class, and six lecture presentations in Santa Cruz, Sacramento, Marin County, and Los Angeles. In addition, one Tian Gong teachers' training course and two Karmic Disturbance Disease workshops were conducted.

In California, there are regular Tian Gong Practice Groups in San Francisco, Santa Cruz, Sacramento, and Los Angeles.

On April 17<sup>th</sup> and 18<sup>th</sup>, Grand Mas-

ter Le Tian conducted a Tian Gong A1 Teachers' Training course in Union City.

On May 15<sup>th</sup> and 16<sup>th</sup>, Tian Gong International Foundation held two sessions of Karmic Disturbance Disease workshops in Santa Cruz and Marin County. There were sixty students attending these sessions.

Grand Master Le-Tian and Germany's Master Tian Ping, using their third eye, identified and did healing on the attendees in the Karmic Disturbance Diseases workshop. The attendees were

amazed and respected the accuracy and effectiveness of Tian Gong's identification and healing powers.

In order to better serve the Karmic Disturbance Diseased patients in the US, Master Tian Ping will return to the US to assist in the planned KDD sessions in October.

On the night of May 23<sup>rd</sup>, Grand Master Le-Tian, along with a team of selected Tian Gong Practitioners, assisted in the cleansing of the lost souls in the Bay Area.

**“The attendees were amazed and respected the accuracy and effectiveness of Tian Gong’s identification and healing powers.”**

**COMING SOON.. TIAN GONG WEBSITE IN SPANISH!**

Sr. Ricardo Hernandez from Guatemala is an Eastern Culture enthusiast. When he discovered the Tian Gong website, he was amazed and was instantly attracted to the teaching of Tian Gong! Captivated by its content, he instantly started reading the information on the webpage and simultaneously began practicing the 6 introductory practices according to the posted instructions. He then began teaching Tian Gong to his family and friends, meeting with them regularly to lead group practices.

When he realized that the website was only available in Chinese, English, and German but was not in Spanish, he offered to dedicate himself to working on its translation. He has now finished translating the entire English content into Spanish. Thanks to his hard work, the Tian Gong Spanish website will be available in the very near future.

If you or anyone you know are interested in signing up for A1 class, please contact Mary. When there are enough number of students we will open a class, taught by certified Tian Gong Instructors.

**REPORT ON KARMIC DISTURBANCE DISEASE WORKSHOP**

By: F. Lew, Contract Specialist

On May 16, 2004, I participated in a Karmic Disturbance Disease (KDD) Workshop held by Grand Master Le-Tian. I went to this workshop without a lot of expectations. I am happy to report the following results.

On the day following the KDD Workshop, I felt different regarding a relationship I was having with a lady friend. I was very attached and obsessed with this lady, and despite my friends urging, I was unable to let go of her for about a year and a half. During Grand Master's group healing at the KDD Workshop, he was clearing atten-

dees of attached souls. I visualized that my girlfriend's soul had attached to me making it impossible for me to let go of her. After the KDD Workshop, I now feel I can let go and move on with my life. This is the "Disease Due to Negative Connections" which involves living souls that interfere and create disturbances with each other.

On the 3<sup>rd</sup> day after the KDD Workshop, I noticed a 3-dimensional object with a 3-inch diameter "eye" imbedded in it, floating in front of me when I look. This imaginary eye doesn't seem to be doing anything except just being there when I think about it. I don't

know the significance of this. This may be due to my Third Eye beginning to open.

Later in the week, I was experiencing greater clarity in my mind. Doing the right things became evident quickly without going back and forth on matters. There just seems to be more clarity in general.

On or about the 10<sup>th</sup> day after the KDD Workshop, I received an impression that all the cells in my whole body were being transformed into a "crystalline structure". This happened twice, and I don't know the significance, but I am grateful for all of the great changes and to Tian Gong.

**TIAN GONG HEALING TESTIMONIAL JUNE 3, 2002**

I began learning the practices of Tian Gong in Nov. 1998 after attending a lecture and healing session with Grand Master Le Tian in my city. During that first session with GM and Tian Gong, I experienced strong healing energy in my body where energy was "stuck" and it brought me into a field of very strong and clear openness and love. At that time, my health problems had reached a chronic stage; I had had three decades of repeated bladder infections, kidney stones, breast lumps requiring diagnostic surgery, menstrual hemorrhaging and hormonal imbalances, fatigue, weak digestion and depression (particularly related to coping with these problems and attempting to keep a work and home life.) I had experienced surgery and antibiotic and symptomatic treatments through Western Medicine (including every appropriate diagnostic test which determined NO bladder conditions

or kidney conditions (other than asymptomatic stones.)) I had also received extensive acupuncture and herbal treatments with an excellent Oriental Doctor (for nine years), Ayurvedic Pancha Karma week-long treatments, supervised fasting, nutritional therapy, Shamanic Healings, Reiki, massage, breath therapy and psychotherapy. Some of these treatments had helped me a little but NONE of them had yielded a complete healing. I was persistent with my pursuit of new possibilities for healing and so with this first very positive experience with Tian Gong I decided to take classes.

During the next year I took the A1 and A2 training with Grand Master and also had some individual healing sessions with him.. At first I was not consistent in my daily home practice of TG, then, through a series of events, I became more closely involved with GM and Tian

Gong. The Association began seeking its Non-Profit status and my background was helpful to this process. Working in person with GM gave me another chance to experience the consistent clear and vibrant field energy of Tian Gong through him.

A few months later, and because I was having a bladder infection which had lasted six weeks and was not clearing up with ANY type of treatment, I asked Gm if he would assist me more directly in healing my chronic health problems. Through a series of spiritual readings, GM determined that the cause of my bladder infection was Karmic (disease of disturbed signals) and long-standing since childhood. The condition had weakened my immune system. He encouraged and actually lovingly insisted that I needed to put total and complete faith towards my healing. During the

(Continued on page 4)

**"Grand Master gave me another chance to experience the consistent clear and vibrant field energy of Tian Gong through him."**

## THOUGHTS ON A TIAN GONG MASTER CONT.

(Continued from page 8)

to quit her practice because she had experienced so much suffering and pain even though she practiced for so many years. But she is very staunch and if she had stopped following Tian Gong, she would never have had the chance to receive her gift from the Universe. She passed the test the divine Universe had for

her.

Grand Master's point of time and space is relevant to our lives within the universe. . If she did not come to America, if she did not go to New Mexico with Grand Master, she would not have received her gift from the Universe. What an incredible story she has to share, and, we now are all grateful for Tian Ping's mastery level.

## MY NEW FEELING OF BEING ALIVE DUE TO TIAN GONG

*Experience of Waltraud B. from Berlin*

*Grand Master Le-Tian's energy demonstration*

When coming to the demonstration, I had a bad backache. I had attacks that appeared from time to time quite intensely. Normally they had to be treated in order to reduce them. When sitting down for the speech I thought: "Oh my god, who knows if you'll be able to sit for such a long time? And you are even sitting in the first row. You have to sit quietly, you mustn't disturb anyone." But then during the first energy transmission my pain disappeared. This was very impressive. The powers that are activated here are incredible, just in this room, I thought. I felt these powers. My hands were vibrating and my face glowing and then the pain disappeared. First I thought it was put back into place as a result of some movement. But no, it was these energies that were the reason for it.

I could absorb the whole speech with delight. It was a pleasure for me, an indescribable pleasure. At this lecture they said a demonstration would be held in the field of Karmic Disturbance Diseases. I have never heard about these diseases. I also have never heard about Qi Gong or Bi Gu. I soaked up everything like a sponge but first of course I had to internalize, what it was all about.

Somehow the Grand Master must have heard, seen or perceived in some way my cries for help. He must have felt that my soul pleaded for help. For the demonstration they were looking for someone who did not have contact with Tian Gong up to this point, who neither the Grand Master nor the master Tian Ying knew. In a group of about 100 participants they asked me to stand up. I thought: "Oh my god, why me?" "Well", I then thought, "I will do it. I am here to be helped. I had come here because I needed help." I was so upset – and upon thinking of it now I am still upset because I feared not understanding the questions properly, not answering correctly.

The Grand Master told me the reason for my diseases was an Information Disease and that my father's soul had stayed with me. He asked whether I wanted him to ask this soul to go away. At the beginning of the demonstration, Mrs. Li had said that several souls can be in one person's body. One soul would continuously say: "do it this way", the other would say "do it that way". In any

case the result would be something diametrical. I then said to myself that my father did not do anything to me in his whole life and that he could stay with me. However, if I retrieved peace by asking his soul to go and if I were myself again, it would indeed be better if he went. I had to make this decision very quickly but finally I agreed in asking my father's soul to go from the bottom of my heart. Now my father found a peaceful place to stay where he feels good and I have retrieved the balance that I had longed for so much. Since then my soul seems free. My sorrow is gone, and I feel inner joy.

The other visitors of the demonstration helped me a lot with their energetic applause. The workshop's energy was so strong that it almost knocked me over. I felt such an intense energy...

*The evening after the demonstration*

When I went home, I did not at all know what was happening to me. I was suddenly able to walk upright. This had not been possible for the last 20 years. I had always been pushed forward. I could stand up in a straight position, and I felt no pain at all. I then told the neighbour in my garden about it, who replied: "See, this is the effect of the energy." She also said: "You know, this evening, you have to celebrate yourself." "Well", I thought, "how shall I celebrate myself? I will light a candle then I will say thanks for everything I was allowed to learn today."

The following night I slept well for the first time in many years.

*Today I feel as if I were a new woman.*

Since I am doing practice and regularly attending the Tian Gong events, I feel much better. My sleeplessness has improved a lot. I can even sleep six hours without interruption for a few days, sometimes even seven. Now, today, I feel so good that I don't have my backache and am able to sit upright, which was not the case for a long time. I enjoy being at home; I am really fond of being within my own four walls. The restlessness that pushed me to leave the house is gone.

And the best thing is: I am able to smell again! I have not

(Continued on page 13)

## THOUGHTS ON KARMIC DISTURBANCE DISEASE

By Wendy Zhang

Grand Master emphasizes that the human being is a combination of the physical and spiritual bodies. The two bodies affect each other and help each other. Therefore you want to keep your physical and spiritual bodies healthy. Karmic Disturbance Disease is a kind of spiritual body disease. The disturbed signal may be from your current lifetime or your past lifetime, or even come from your ancestors. It is called Information Genetics in Grand Master's teaching. In Human Genetics we know that we inherit our ancestor's characteristics, and we may also inherit their hereditary

diseases if they have any. Some hereditary diseases are dominant, some are recessive, and some diseases are gender related. Some diseases are expressed on the next generation; some are expressed every other generation. Many people live normal lives, but are unknowingly the carrier of some disease. If we say that the physical body system is very complicated, you may imagine that the spiritual body system is much more complicated.

There are not many people in America talking about KDD, but in Europe, especially in Germany, it is not a new concept to many people. There is a psychologist in Germany

who has studied KDD for about 10 years. His student is working in conjunction with the Tian Gong Institute in Germany to study KDD together. Modern science and technology have their limitations. There are many phenomena that can not be explained by science, meridian channels are one of them. We can see the blood vessels and nervous cells by medical instruments, but not the meridian channels. It is difficult to prove the existence of the meridian because of the limitation of science and technology. But we know the existence of the meridian because we can feel the circulation of chi in our body.

## A LETTER TO HIS WIFE—KDD EXPERIENCE

by Brian Brogan

Dear Kathy,

You should know of my experience at the KDD workshop as should everyone really. I went to it knowing it would be different, I mean I knew what the general content would be, but the experience was far beyond expectations – it was phenomenal.

It's a bit of a challenge to explain the unseen, the tremendous amounts of energy surging around and through the body, but I will try to give you an understanding (through the limitations of language) of an experience larger than life, as I have known it.

The teachings of spiritual wisdom from Grand Master Le-Tian are like nothing I have ever encountered. The teachings content (Qi infused), although alien to my knowledge, and wisdom strike with a clarity and reverberation of inner truth. Old beliefs can change easily with his words alone. When he begins his intensive energy healing/karmic soul cleansing, you feel your reality is being transformed in mind, body and spirit. Many people who came to this workshop spoke of their long term physical problems being healed instantaneously. These were complex and untreatable problems, even after years of hospital visits. The stories are truly profound and numerous.

I went to the workshop because of my belief in karma. You know I don't have any physical problems to speak of, but sometimes life can be difficult for karmic reasons, so this is what I experienced;

It was a transcending energy beyond the self, but embodying the self in total absorption. It owned me and I was it. It was as if the "I" that I know (or the ego) was but a distant witness at the same time. If this sounds scary it wasn't, I felt safe, wonderful and I welcomed it. At one point it felt as if I peaked with a surge of sprinkling energy in the head and body, a rain of multi-florescent colors in a brilliant synergy, it felt, literally divine - a humble glow of joy and peace.

Everyone has a different experience. I felt transformed by this workshop, there is a lingering energy still with me and it seems like there's a higher level of consciousness. I believe I was purged of negative karma – simple as that. Grand Master Le-Tian says we all carry some form of negative karma from this life or past lives. Since you're so open minded, and your mother had those diseases you should really experience this for yourself. It's a true blessing,

With much love,

Brian

## WORDS FROM GRAND MASTER CONT.

(Continued from page 1)

the spiritual body. For Human Beings, the physical body is manifest and the spiritual body is invisible, while the opposite pattern is true for the 4<sup>th</sup> Realm Gods. Some Earth Humans, by merit of their high virtue, ascend to the 4<sup>th</sup> Realm after passing over and attain the status of Mountain Gods or Earth Gods. In the 4<sup>th</sup> Realm, these beings continue in Cultivation and Practice (Xiu Lian), performing virtuous deeds and thereby accumulating even more positive energy in preparation to ascend to even higher levels of existence; the 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> or even possibly to the 8<sup>th</sup> level. Beings that attain the 5<sup>th</sup> or higher level of existence are referred to by us as “Celestial Deities”.

5. Humans have both a physical body and a spiritual body. The physical body denotes space, and the spiritual body denotes time. The Universe is composed of space and time and so are the Earth and the Sun. Space belongs to Yang and is composed of particles, while time belongs to Yin, and is composed of waves. Particles are visible, can be felt by touch and have weight and volume. Waves are invisible, cannot be felt by touch, and has neither weight nor volume. The Human Structure, encompassing time/space, with the physical body composed of particles and the spiritual body of waves, is thus a miniature Universe, or Microcosm.

6. The crisis on Earth is alarmingly grave! This statement can hardly be overemphasized. The crisis did not just begin today, but has been brewing ever since Human Beings established the family structure. Between 6000-7000 years ago, during the final period of the era of Matriarchal Society, “family” was still unheard of. During that time Humans lived together in groups. Children knew only of their mothers but not of their fathers. Starting from 5000 years ago, China entered into the era of Patriarchal Society and with it the establishment of “families”. With the advent of this new social structure, people became selfish and calculating, driven primarily by the selfish motive of serving only their own families. In the last 3000 years, the general trend of human existence has been to pursue self-gain and gain for one’s own families rather than placing a priority on serving the Earth, thereby causing today’s crisis.

7. As the living conditions continue to improve, we are simultaneously observing the phenomenon of people shutting themselves away inside tiny individual “match boxes” – their primary living space. Surrounded on all sides by either concrete or wood, they are able to see neither the Moon nor the Stars and are becoming more and more out of touch with the Sky above and Nature in general. This is one of the causes of our present crisis. With the advent of television and the ability to watch it and receive news of the world while sitting inside their individual “match box”, many people are no longer willing to go out to the movie theaters, let alone step outside to gaze at the Moon and the Stars. Preferring to drive or ride in automobiles, they are not interested in walking

even one extra step! This is why illnesses unique to the Modern Age are becoming more and more rampant. In antiquity, humans were unselfish and interacted with Nature harmoniously. Because everyone lived a transparent life, no one dared to scheme. Now, concealed inside the “match boxes”, everything of a “negative” nature remains secret and unexposed and is thus able to grow. Believing they are able to engage in negative acts without being exposed, people continue in their behavior contributing and perpetuating negativity and crime. .

8. For Humans, the “art of eating” knows no limits. This generates a drive to kill and eat animals without reservation; because of this recklessness, we dare to eat just about anything. The Cantonese people in China are well-known for their cuisine; for this reason, it is no surprise that SARS originated in and then spread outward from Canton.

Why do these infectious diseases such as SARS, Bird Flu, Black Plague, AIDS, etc, appear in the first place? They are all arranged by the Universe as a potential means of stopping Human Beings from destroying the Earth.

9. During the month of August of this year, while staying on the Canary Islands, we visited a volcanic crater. The crater was enormous and looked very similar to a big cooking pot. Tian Ying saw a very large, hollow spherical object sitting inside the crater.

I gave Tian Ying permission for her soul to enter into the sphere, but somehow she was unable to do so. The surface material of this object was Yin in nature and very unusual—even though not visible to the naked eye, it was extremely strong and hard. I then communicated with High Wisdom Beings to give us permission to enter and the request was granted. The beings instructed us to enter to the inside through the entrance on top of the sphere. Tian Ying’s soul was now able to get inside right away. The interior was found to be a vacuum, empty of objects, and very clean. On the contrary, its outside surface was very dirty and polluted. There was an opening on the bottom of the sphere, with a few passageways connecting underground. Her soul went down the passageway and entered into a large hall—the working quarters of beings living in the 4<sup>th</sup> realm. They showed her hurricane detectors, flood detectors, Tsunami detectors, along with giving her lots of other information. They explained to her the cause of earthquakes: when Humans disturb a certain area on Earth, the energy there becomes clogged – similar to the analogy that energy blockages in a human body will eventually make that person sick, or similarly if a person has cancer, it is best to intervene at the early stages rather than risk the danger of further development to become life-threatening – through earthquakes, negative energy accumulated at the congested spot on Earth can be dissipated. This is likened to undergoing surgery: after the quake, this area is weakened due to the injury sustained from the quake. Even so, the quake is nevertheless necessary, otherwise the disease can become more serious later on. The purpose of: the hurricane is to eliminate negative energy accumulated in the lower atmosphere; the Tsunamis for ridding the accumulated negative energy in the ocean; the hail to eliminate the negative energy accumulation in the upper atmosphere; and, the purpose of floods for cleaning up the

“Tian Ying’s soul was now able to get inside right away.”

## TIAN GONG IS VERY HELPFUL AND IMPORTANT TO ME

Tommy G. (Berlin)

After the first Tian Gong lecture/workshop I attended I clearly felt that my health problem was touched upon and that something had moved there. The energy transmission during the lecture fully worked, my state of health was definitely positively influenced. For the following half year I practised this exercise every day and my health problem slipped away. Slowly, step by step, but very powerfully and

noticeably.

My whole fate has changed substantially because of Tian Gong. Not only mine, but within my family positive changes occurred. Relationships to parts of my family which previously have been seriously strained and complicated became very positive.

I can manage my every day life much more easily provided that I practise regularly. Unfortunately there are from

time to time periods during which my weaker self dominates and when I do not practise. Then negative effects immediately show up and I fall back into the old patterns. Meanwhile I can say that the practises are elementary for me - almost more important than eating and breathing. They are absolutely important. I simply notice that practising makes me feel good. It is also the case that practising always opens up new doors and levels.

## MY EXPERIENCE WITH TIAN GONG

By Andrea Z.  
(Journalist, Berlin, Germany)

I learned about Tian Gong in a newspaper advertisement and immediately registered for the A1 course. Even though I didn’t have any acute complaints, I’ve had recurrent inner ear problems for some time (inflammations, disorders of balance). After the weekend course I didn’t notice any particular change apart from great fatigue.

On the following Wednesday I once again attended Qi Gong and strangely the next morning when I woke up I

had a severe earache. It confused me at first until I noticed that the earache was merely due to extremely low pressure in my ears. When the pressure got back into balance, the pain was gone. The next five days when I woke up, I had this low pressure, it got weaker and weaker however, until it disappeared altogether.

I haven’t had any ear problems since.

Another effect, which I ascribe to regular Tian Gong practice, is that when jogging, swimming or during other activities, I have developed enormous stamina, something I never had before despite intensive sport activities. This happened after a winter of no sports or exercise.

## DARIO’S HEALING

My eight-year-old son Dario had a number of health problems which climaxed in a severe form of herpes, not only on his lips, but the entire cavity of his mouth, and his hands were covered with blisters. It got so bad that soon he could no longer take any solid food and no longer felt hunger at all. The doctors said there was nothing to be done about it since it was a virus disease which his body had to defeat on its own. A week later, there was still no visible improvement, if anything it got worse.

I took him with me to Tian Gong and Master Tian Ying did an energy transmission. The next morning he was suddenly better. He still had inflammations in his mouth, but he wanted to eat again. Then he started devouring enormous amounts of mash and he drank a lot and became much more cheerful again. Five days later he had completely recovered. His ravenous appetite lasted for two weeks, and then it went back to normal again.

## FENG SHUI REGULATION BY MASTER TIAN YING

Since moving into my apartment I have not been at ease in it. I have had nightmares and been suffering from feeling extremely cold, something no amount of heating could help. Also, the light bulbs in my living room would burst all the time and the phone was always out of order for no reason. Sometimes it would work ok and then sometimes it would fail to ring and the answering machine would be switched on immediately, or for no discernible reason it would put the call through to my fax machine. I thought it was broken, but it would start working again suddenly.

In the winter I got really depressed and I had the constant feeling of being watched by somebody. I asked Master Tian Ying for advice. She told me that in my flat there was an old woman’s information, i.e. the spirit of the deceased woman influencing the energy.

She asked her to leave the flat. Since then not one single bulb has burst and the phone has been working without any problems. I feel much better, sleep well and have hardly any nightmares anymore. (Summer 2002)

## EUROPEAN NEWS BRIEF CONT.

(Continued from page 9)

On the 28<sup>th</sup>, Tian Gong received relevant messages about the souls of millions of Jewish people who were killed during the World War II.

On the 29<sup>th</sup>, the team assisted in the cleansing of the Chi Energy Field on the Scandinavian Peninsula. And the message from the universe: “Norway is the model country on the earth; all other countries should learn from the spirit of Norway.”

On July 1, at 1am, the sun in the North Pole was still shining. Grand Master and his group enjoyed the golden sunshine at midnight.

On July 3-4, Tian Gong hosted its first Tian Gong demonstration and A1 workshop in the city of Köln. The enrollment exceeded the expected limit. As a result, Tian Ying and Tian Ping decided to come back to Köln again in November to hold various Tian Gong events.

On the evening of July 5, 6th,

12th, and 13<sup>th</sup>, at the invitation of the German practitioners, Grand Master decided to add the following four classes:

Distant Feng Shui and family relationship adjustment cultivation class;

KDD class

Soul Repair Class

Internal Organ Strengthening Class

These were two-hour classes each, held at Berlin Tian Gong Institute, with between 70-100 students in each class. Amazing results were achieved

## A DISEASE AS A CHANCE TO CHANGE

### A TALK WITH SEBASTIAN B. (STUDENT, 25, BERLIN)

#### How are you doing today with respect to Tian Gong healing your disease?

Today, as I am sitting here now, my disease is approximately 80% resolved.

#### Did you also experience some other changes by practising Tian Gong?

I definitely can say that Qi Gong has changed my life in a positive way. Therefore I am very grateful to all, especially to Master Tian Ying and to Grandmaster (Chen Le Tian).

I feel myself much more down to earth than before. Spiritually I can integrate the experiences and the energy which I have received from Tian Gong into my own way. I also feel myself more grown up.

Physically I feel myself fitter. Since having been ill I have always been very tired and worn out. Today I am again a person with a lot of energy as I was before my illness.

Qi Gong also gave my life a new meaning. I feel myself fulfilled by Qi Gong and

like practising very much. Practising is not a duty for me because I really feel the deep inner wish to do it.

#### So Tian Gong has also an effect on the soul?

Yes, indeed. Through Qi Gong I have become another person, a person that also corresponds to my inner ideas; especially through the recent demonstrations of the Grandmaster in Berlin. It was particularly his lecture about Xiu Lian where I again became conscious that I should simply stop with negative inclinations. This lecture moved my heart and confirmed for me once more why I had gotten this disease. In my life I have acted badly in many respects. These insights brought me again a step further, mentally and spiritually.

I have become more virtuous. I had always wanted this, but never truly succeeded. Today I have a firm resolve which had not been there before.

“Qi Gong also gave my life a new meaning.”

## WORDS FROM GRAND MASTER CONT.

(Continued from page 6)

negative energy causing blockages on the surface of the Earth. Tian Ying asked the Beings: “Are these disasters on Earth caused by you?” The 4<sup>th</sup> Realm beings replied, “No, they are caused by you Humans residing in the 3<sup>rd</sup> realm. We are actually helping you in the elimination of bigger disasters. You, the 3<sup>rd</sup> realm Humans, make the Earth ill, and we, on the contrary, would like to maintain the health and balance of the Earth. Both of us share the same living space on Earth. The consequence of the activities of the Humans in the 3<sup>rd</sup> realm of constantly disturbing

the natural balance on Earth has threatened even our general survival”. 10. What is the destiny of the Earth? There are only two foreseeable outcomes; one, the Earth will be saved and upon it a superior civilization will appear, OR two, it will be swallowed up by the Black Hole like Planet Maya. Both of these possibilities exist. Right now beings in all realms are focusing their attention on Earth. At present, the Earth is seriously ill and the disease is festering. This process impacts the survival of not just Earth people, but also the beings living in the 4<sup>th</sup> realm. The disturbance has already been felt within the 5<sup>th</sup> realm and all the way up into the 9<sup>th</sup> realm, shaking up the peaceful existence of residents in these realms.

11. For the sake of illustration, we shall call the Human Body the Universe and the toe of the Human the Earth. When a person’s toe is festering, pain would be felt not only in the toe, but throughout the entire body both day and night. If the Earth is rotting away, similarly, the Universe would be subjected to constant suffering around the clock. When our toe is ill, normally we would treat the infection with either injections, oral medications, or other types of intervention. The method the Universe adopts in treating the Earth when it is undergoing an illness is by following the same principle. If all the treatments fail and the disease keeps on spreading to the rest of the body and then into the blood stream, our next decision might be to have a surgeon perform an operation to cut off the toe. Using the same analogy, if the Earth’s condition keeps worsening despite all other means of treatment, would the Universe make a decision to cut the Earth off? Would it set it off in an explosion and let the Earth’s remains be swallowed up by the Black Hole in order to restore peace in the Universe once more?

12. What is the cause of the Earth’s present dire state? It can be attributed entirely to the acts of “Human Souls”. These souls consist of 2 types – “Souls that are presently living” and “Souls that

have passed over”. Even though the “Passed-Over” Souls are innumerable, the 6 billion Living Souls (the world population) is nevertheless a considerable figure to contend with. The Earth could be saved if all these 6 billion Souls decided to dedicate themselves to performing good deeds; on the contrary, if the majority of them choose to engage in negative acts instead, then the Earth will have no hope of surviving.

13. The Passed-Over Souls can further be classified into 2 types. The first type we shall call “Residential Souls” because they live inside dwellings. The second type is called “Lonely Souls” since they are unable to find a home or building in which to settle down. The Residential Souls typically live either inside graveyards or people’s houses, and some even choose to take up residence inside people’s physical bodies. For instance, a person who has harmed another person in a previous lifetime may find the wronged soul living inside his physical body, willfully causing disturbance and inflicting injuries; and the disease that results is called “Karmic Disturbance Disease” – or KDD – which classifies as a type of Cause-and-Effect Disease and has been causing many people tremendous amounts of suffering. If an individual’s residence happens to harbor such souls, that person would almost invariably find him or herself being constantly beset with hardships in life – including physical illnesses, household problems, business trouble, etc. We call this type of house a house with “bad” Feng Shui.

14. Modern medicine basically has no cure for KDD at the present moment. The only diseases that can be cured are the KDD of a non-serious nature. The diseases that keep on ravaging in spite of treatments can generally be categorized under KDD. KDD has the potential to affect the future survival of the Earth. Most KDDs are the consequences of accumulated negative deeds performed over many life times. KDD is the disease due to spiritual debt resulting from negative deeds; before the person pays off their debt in full, healing is not likely to happen. Anyone with KDD should be determined to pursue the hopeful path of advanced level “Virtue Cultivation” (to purify the Soul) and “Physical Practice” (to strengthen the physical body,) and not put to high of expectations on either surgery or oral medications to cure his disease. Everyone should carry out the act of Saving the Earth, Saving the Human Race, and Saving One Self. The Lonely Souls experience a lot of suffering, and are thus deserving of our sympathy.. They have no dwellings to live in and no human bodies to attach to, so they end up either wandering around into forests or streets; some of them end up attaching themselves to trees while others end up wandering along streets, causing automobile accidents. Large quantities of these Lonely Souls press down on top of each other underground, forming layers, with the newly formed top layer pressing down on the lower layers. These types of Lonely Souls have an especially weak energy field and are thus incapable of moving about freely; therefore the resulting deposit accumulation at the same site over a period of thousands of years can be quite enormous. Since the newer souls have relatively more energy, they tend to take advantage of and push the older souls around, making the latter even more miserable. When a person dies, his soul drifts about like a thin sheet of paper. The old souls would start looking like rotten sheets of paper undergoing disintegration after being pressed upon from the top of the pile over a very long period of time.

15. Aliens from outer planets belong to the 5<sup>th</sup> realm of existence. Their transportation vehicle is the UFO, which they control by using mind power. During the previous Earth Civilization these beings used to come and go on Earth at will. After the sinking of Atlantis, some of them stayed back to help the remaining Earth people and taught them survival skills; after this mission was completed some of them were able to return back to their respective planets. Some, however, suffered a weakening of their energy fields. This was a

(Continued from page 7)

direct result of injuries inflicted upon them by Earth people. They lost their power, leaving them unable to return to their places of origin. They ended up on Earth like orphans. Presently, some of these aliens remain on Earth. One of the goals of our Cultivation /Practice is to help them to return to their original homes.

15. This June, we made public an ancient Chinese Cultivation/Practice method called "Tuo Tai (or Casting Off the Sheath Covering the Soul Body)/Huan Gu (or Replacement of the Skeletal Structure). The process of skeleton replacement starts with replacing the kidneys and the bones, until eventually the entire physical body is renewed. The process of the Soul Body finally making an emergence out through the sheath involves a stripping away of the dirty and polluted outer layer surround-

ing and thus covering the Soul Body. "Skeletal Transformation Technique" is also referred to as "Celestial Bone Practice". This practice does not involve changing the bones on the physical level; rather, it works by changing the imprints embedded in the bones. In order to complete this, the kidneys must first be changed. . The primary initial step is to pull up information on the "Celestial Kidney" from the "Celestial Storehouse" and the next step is replacing the old, decayed and filthy information in the kidney being "worked on" with this new imprint. As the process continues, the negative imprints on the bones, the heart, liver, and other internal organs are also subsequently replaced, until the final state of a Super Physical Body is achieved. To succeed at "Skeletal/Organ Structure Transformation" is difficult and

even more so to achieve "Casting Off the Sheath Covering the Soul Body", but "where there is a will, there is a way." Tian Gong has already achieved remarkable results in this field, and the light is dawning for Improving the Quality of the Human Race. Concurrently, modern scientists, in their hopes of achieving the goal of human life extension, are also experimenting with cellular technology to replace existing organs within the human body. Tian Gong, on the other hand, works on the subject of complete renewal of both the physical body and the soul body through information and messages received from the Universe. Even though Tian Gong Practitioners and Scientists are approaching this subject from different angles in separate research and study in the field of Human Life Sciences, (one using the Yin while the other the Yang method) the first group to arrive at the destination will depend entirely on the Universal Will.

*Words from Grand Master* are excerpted from Grand Master Le-Tian's Speech on *Save the Earth, Save the Human Race, Save One Self* held at Hungarian Center in Berlin, Germany, September 28, 2003.

## THOUGHTS ON A TIAN GONG MASTER

By Wendy Zhang

Tian Ping, a Tian Gong master in Germany, shared with us her story of bone change. Tuo Tai Huan Gu – "emerge from the womb and change one's bones" – is a Chinese phrase. It means to be reborn or cast off one's old self. I knew this phrase when I was at elementary school in China, but I did not know that it could truly happen until I heard her story.

Tian Ping has followed Tian Gong diligently for approximately 10 years. She is a highly respected Tian Gong master. Through her Tian Gong practice, she developed many latent special abilities. She has been fasting for about 5 years, and her third eye is open. Still she suffers from disease and pain. Last May, she followed Grand Master to New Mexico to be

an assistant for an A1 class. On the way she told Grand Master that she did not want to go, because she felt so weak and was experiencing so much pain. That would be an embarrassment to Tian Gong.

One night after finishing A1 class, the Universe washed Tian Ping's kidneys and changed her bones. She was so excited she cried. She was humbled and grateful to the Universe because she was the first practitioner to receive such a wonderful gift from the Universe. Now all her pains are gone. She quit her job, to begin full-time work in Tian Gong helping her sister at the Tian Gong Institute in Germany.

I've thought a lot about her story. First, Tian Ping is quiet, courteous and a nice lady; she has a loving heart. From

her spiritual reading, it was discovered that her suffering for so many years did not originate from herself. It was passed down from her ancestors. This is the Information Genetics category. If our ancestors had good virtue and good energy, we may get benefits from them and our life may be much easier. If our ancestors did something bad or hurt somebody and did not solve the problem at that time, the bad information or negative energy may pass to us. We Chinese say, "The debt owed by the father will be paid by the son if the father dies". Therefore we need to cultivate our virtue and accumulate our good energy. It is not only good for us, but also good for our descendants.

Tian Ping had many reasons

(Continued on page 12)

## EUROPEAN NEWS BRIEF

In the 2004 Annual Plan, as in the past, Berlin Tian Gong Institute has scheduled monthly energy (chi) transmission workshops and monthly A1 classes throughout the year; in addition there were classes on lung and kidney disease healing, KDD classes, A2 classes and various lectures.

On April 10-11, Tian Gong Masters Tian Ying and Tian Ping used a new method in the celestial language class taught at the Berlin Tian Gong Institute. Celestial language is the language communicated between the human soul and the universe, particularly when the human body enters the state of no self, a deep level of Chi Gong state, one will naturally speak such language. Masters Tian Ping and Tian Ying accurately translated the celestial language spoken by the students and conducted healing to the students based upon each student's specific situation. At the end of the two-day workshop, most students felt relaxed physically and mentally, discharging the negative Chi accumulated in the soul. Most students felt they had a soul cleansing.

On April 16-18, fifty people from all over Germany and neighboring Austria attended Bi Gu (Tian Gong fasting) Class. Masters Tian Ying and Tian Ping spread Bi Gu energy, conducted detoxification, and Tian Qi explained the meaning and significance of Bi Gu from the medical perspective.

On May 3 -17, Master Tian Ying and Kathrin gave several Tian Gong lectures and workshops on the islands of Teneriffa and Gran Canaria, Spain. On May 10th, they were interviewed and then published with photos by Canaria 7 Newspaper on May 17th .

On May 28, Master Tian Ying, Director of Berlin Tian Gong Institute, was interviewed by Berlin Television Station. She introduced Chi Gong and Tian Gong to the German television audience.

On May 29, Berlin Tian Gong Institute moved to a new office. The new office is located on the 5<sup>th</sup> floor of Salzefer 13-14, in the Charlottenberg area of Berlin. This is the third time in 5 years that Berlin Tian Gong Institute has moved offices due to expansion, from the initial 200 square foot office, to 1400 square ft., to the current 2200 square ft, with a bright and spacious practice hall (1340 square ft). Practitioners all praise the good feng shui of the new office.

On June 4-5, Berlin Tian Gong Institute hosted two extraordinary healing power demonstrations at Pump Youth Palace in Berlin. Grand Master Le-Tian was invited to do the demonstration. Over 320 people attended the demonstration. Grand Master worked with Tian Ying, Tian Ping and Tian Qi, conducting various healing demonstrations, including pain relief, internal organ healing, soul cleansing, integrated body

and mind healing, dissolving tumors and organ stones, ear disease healing, curing of Karmic Disturbance Disease, and distance Yin Feng Shui reading and adjustment. The demonstrations were very well received by the attendees.

On June 11-13, Karmic Disturbance Disease (KDD) workshop was held in the new Practice Hall of the Berlin Tian Gong Institute office. Over 90 people from all over Germany attended the workshop. Most participants had either terminal diseases or diseases with no cure, and they knew very little about Tian Gong. On the first day, Grand Master found out that the students did not fully communicate with Tian Gong. On the second day, Grand Master felt that the energy field of the workshop was clogged, and some students were too anxious to get the results. During the noon break, Grand Master had a discussion with Tian Ying, Tian Ping and Tian Qi and came up with a solution, which focused on faster communication/chi vibration between the teachers and the students. In the afternoon, the atmosphere was rapidly turned around, and the energy field was harmonious. On the third day, everything was improved. Grand Master and his three capable assistants each showed their respective power. Most KDD patients had achieved healing on the spot. The whole practice hall was full of happiness. When the workshop ended, the students wished to stay longer; students came over one by one to express personal thanks to Tian Qi, grateful for the introduction that Tian Qi made for them to attend this special Chi Gong workshop and enable them to find their path to health.

Grand Master told all of the KDD students that both TGIF and Berlin Tian Gong Institute had decided to donate all of the income from the workshop (after tax), like all previous KDD workshops, to charity. The students applauded this decision, and some were moved to tears.

On June 13-20, Tian Gong International Association and Berlin Tian Gong Institute hosted a 7-day retreat in the beautiful resort of Kirchheim, in the German Black Forest, with 41 attendees. Grand Master gave the practitioners lectures on initiation, Bi Gu, Celestial language, and Celestial eyes. Except one student, all of the students entered into the state of Bi Gu, full of energy, exhibiting various extraordinary power. The students said that it was a heavenly life to be having Bi Gu, opening up Celestial Eyes, and speaking Celestial Language in such a beautiful environment with the water and mountains.

On June 22 - July 1, Grand Master, Tian Ying, Tian Ping and German practitioners, Lita and Kathrin visited the North Pole in Norway to receive the message from the universe. Grand Master flew in from the US to meet with Tian Ying and her team who had been arrived earlier in Tromso.

They arrived in Lofoten to visit several special places where time and space were in line (that is, at a specific point in the Time Space Continuum), there they received the important messages about the "great crisis" and "great hope" of the earth sent by the Earth God, the God of the Sea and the sunken Titanic. Tian Gong will disclose these messages to the public at the appropriate time.
